OFFICIAL COMPLIANCE DOCUMENTATION

Document Version : 1.0

Effective Date : July 2026

Last Updated : July 2026

Organization : DPGNotes

Classification : Public Documentation

=====

1. INTRODUCTION

DPGNotes maintains an Analytics and Tracking System to improve platform performance, enhance user experience, protect platform resources, detect suspicious activities, and generate operational insights. The information collected through this system is used solely for educational platform management, security monitoring, engagement analysis, and service improvement.

The analytics system is designed to respect user privacy while collecting only the information necessary for platform functionality, operational monitoring, fraud prevention, and statistical reporting.

=====

2. PURPOSE OF DATA COLLECTION

The Analytics System helps DPGNotes to:

- Measure document engagement
- Improve website performance
- Detect malicious or automated traffic
- Prevent abuse of platform resources
- Analyze visitor trends
- Monitor reading behaviour
- Generate anonymous statistics
- Improve accessibility and usability
- Identify technical issues
- Support platform security investigations

=====

3. GUEST USER ANALYTICS

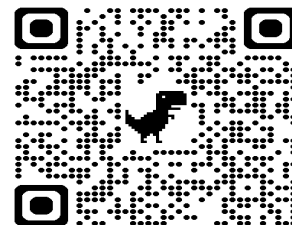

Visitors who access DPGNotes without creating an account are assigned an anonymous Guest Session.

The following information may be collected:

- Anonymous Guest ID
- Session ID
- Session Start Time
- Timestamp
- Date of Visit
- IP Address
- Approximate Country/Region (where applicable)
